PRE-START PROCEDURE (before each start according to schedule):

6 min before: bikes to prestart area (end of pit lane)

5 min before: track gate open. Riders will make one lap at unrestricted speed to the starting grid.

4 min before: track gate closed. Any riders remaining in the pit lane after it has been closed will have to start the warm up lap from the pit exit and start the race from the back of the grid.

ONE mechanic only, per rider, may go onto the grid (without tools) to primarily indicate to his rider his position on the grid. When the rider takes his grid position, the mechanic must immediately leave the grid. As soon as all bikes are in position, a 15 seconds board will be shown. These 15 seconds may be reduced at the discretion of the Race Direction when the grid is cleared and it is considered safe. After 15 seconds have elapsed a green flag will be shown to start the warm up lap.
